

What Brand of Peanut Butter is Safe for Dogs List? (Xylitol Toxicity in Dogs)

Unsafe or Deadly Peanut Butter Ingredients for Dogs

- **Xylitol – Known to be deadly in even tiny amounts (worse than dark chocolate)**
- **Palm oil – Known to cause some dogs watery diarrhea and dehydration**
- **Hydrogenated oils – Known to give some dogs watery diarrhea**
- **Sugar – Known to cause vomiting, diarrhea, weight gain and cavities**

Xylitol Toxicity in Dogs

Is Xylitol safe for dogs? **No, even a small amount xylitol can cause seizures, liver failure and even result in the death of your dog. Never knowingly give your dog food containing xylitol, including peanut butter. Store foods containing xylitol on high shelves or better yet; keep them out of the home.**

Xylitol is an artificial sweetener that kills dogs but is safe for humans. From the researched I gathered, most dogs who suffer the toxic effects of xylitol did so after “getting into” sugar-free gums and candies that contained the ingredient (think Christmas stockings and Easter baskets).

Peanut Butter Alert for Dogs

Safe for humans, deadly to our dogs, Xylitol is also in the commonly fed treat: peanut butter. Xylitol Toxicity in Dogs should have every dog owner using this **Peanut Butter for Dogs Pyramid List** which shows exactly which brands are safe for dogs. And it's not just about Xylitol; other additives can cause diarrhea, pancreatitis, cavities and diabetes.

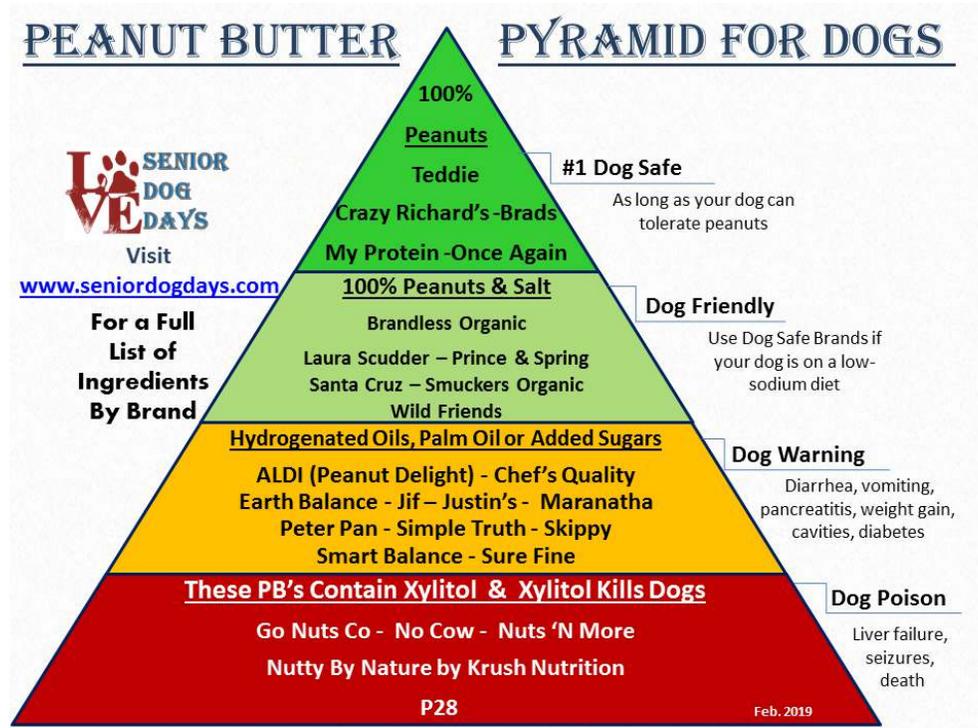

If you like to eat a brand that contains Xylitol, and then your dog needs his own brand without xylitol or other additives that are dangerous to her health.

Peanut Butter Brands that are Safe to Give Dogs vs. Unsafe Brands

Peanut butter ingredient information is plotted into the below pyramid with all of the safest brand peanut butters for dogs listed at the top. It would be good practice to check ingredients again, right before you buy the product. While companies don't change recipes all that often, it does happen.

If you're buying on amazon, all products have either a picture of the actual label or the ingredients are listed about half way down the page (before reviews).

Here is the list of peanut butters that are safe, unhealthy, or toxic to dogs:

What are the Actual Ingredients in Well-Known Peanut Butters?

From this point on, we have listed the advertised ingredients of well-known peanut butters so you can see at a glance whether they contain harmful ingredients for your dog.

We will begin at the top of the peanut butter list for dogs pyramid and work our way down. So the safest peanut butter for dogs will be first and in this order:

- 1 Ingredient Peanut Butter Brands Safe For Dogs - 100% Peanuts
 - Safe for peanut tolerant dogs
- 2 Ingredient Peanut Butter Brands Safe For Dogs - Peanuts & Salt
 - Safe for peanut tolerant dogs who can also have sodium
- Peanut Butter Brands Unsafe for Dogs – Palm Oils, Sugars, Hydrogenated, Chemicals
 - Not recommended for dogs, unwanted health complications
- Peanut Butter Brands Toxic for Dogs - Contain Xylitol that can kill your dog
 - Peanut Butter Brands with Xylitol can Kill Your Dog

1 Ingredient Peanut Butter that's Safe for Dogs

These dog safe peanut butter brands sit at the top of the pyramid list and it's because they are just 100% peanuts. No added salt, no added sugar, no added oils, no chemicals. I feel good putting these peanut butters in my dog's kong or when making his homemade treats.

These dog safe peanut butter brands are listed in alphabetical order

Brad's Peanut Butter Ingredients

Peanut Butter Brands That are Unsafe for Dogs

Palm Oil, Other Oils, Sugar, Sweeteners, Additives, or Emulsifiers

Is Peter Pan good for dogs? How about Skippy or Jif, are they good for dogs? While I didn't see versions that used Xylitol, these and many other brands are made with the human in mind...not our dogs. These brands contain added oils, sugars, emulsifiers or chemicals that can also be harmful to our dogs. Why take the chance? These brands are listed alphabetically.

Unsafe Peanut Butter Brands with Xylitol

These Peanut Butter Brands are Poisonous to Dogs

Veterinarians across the globe warn that xylitol can kill your dog and xylitol is far more toxic than dark chocolate and in smaller quantities. Xylitol kills dogs. Which brands of peanut butter contain xylitol? All of these brands of peanut butter have xylitol:

Go Nutts, Co. Peanut Butter Contains Xylitol

It is nearly impossible to see the entire list of ingredients on their website. Is xylitol listed in ingredients? No, so I called them. As of February, 2019, all of their peanut butters have Xylitol except for Pumpkin and Espresso (espresso should not be given to your dog either).

No Cow Peanut Butter Contains Xylitol

INGREDIENTS: PEANUTS, PROTEIN BLEND (BROWN RICE PROTEIN, PEA PROTEIN), ORGANIC CANOLA OIL, XYLITOL, PEANUT FLOUR, PALM OIL*, NATURAL FLAVOR, SALT, MONK FRUIT, STEVIA.

Nuts 'n More Peanut Butter Contains Xylitol

INGREDIENTS: PEANUTS, WHEY PROTEIN ISOLATE, ORGANIC FLAX, BIRCH XYLITOL, NATURAL EXTRACT

Nutty By Nature Peanut Butter Contains Xylitol

DRY ROASTED PEANUTS, WHEY PROTEIN ISOLATE, PEANUT OIL, XYLITOL, GROUND FLAX SEEDS AND CHIA SEEDS.

P28 Peanut Butter Contains Xylitol

High Protein Peanut Butter

INGREDIENTS: DRY ROASTED PEANUTS, WHEY PROTIEN ISOLATE, PEANUT OIL, XYLITOL.

To everyone who has suffered tremendous loss as a result of your dog eating xylitol: thank you for sharing your heartbreak and shedding light on the horrible effects of xylitol toxicity in dogs.
